WHAT IS UNICORN ?

UNICORN, a cofounded project by the European Union's Horizon 2020 programme, is a DevOps as a Service platform that aims to simplify the design, deployment and management of secure and elastic by design, multi-cloud applications.

DEVELOPMENT AND EVALUATION

Six months dedicated to validate the UNICORN platform by developing an application. You will participate in a face to face training workshop, in Q&A sessions and in a final event to share your experience with the other participants.

The UNICORN project is launching a contest, where twelve SMEs & Startups will be selected to validate UNICORN platform and will receive 10.000€ funding each for covering their development costs and the two travels

THE HUBS

You will have the opportunity to be part of one of 3 ecosystems (Cloud Incubator HUB, CyberForum, Redikod) and receive training and support from the UNICORN experts

CONTRACT

The selected applicants will sign a Validation contract of 10.000€ that will be used to cover both development costs and the two travels (estimated in April and November 2019)
